Meet Kits

Kits makes it easy to **set up and share apps** with students or collaborators. With Kits you can:

**Set up an app for your course** such as a Sites@Duke site, a Box folder, or an MS Team.

**Create a kit for your project or team.** Set up shared apps such as a team listserv (Sympa) or team meetings (Zoom).

**Find and learn about apps** you can set up through Kits in the App Store.

*Learn more about using Kits at [https://keepteaching.duke.edu/resources/#kits](https://keepteaching.duke.edu/resources/#kits)*
Introduction to Kits

New to Kits? Use this guide to learn the basics.

Kits are organized by category. Use the semester dropdown to see course kits for previous semesters.

Apps added to the kit are shown as icons. Click the icon to access that app.

Use the Custom Link tool in the App Store to add a web link to shared apps or content such as Padlet or a Google Doc.

(Lecture)

Find and learn about apps in the App Store. Current apps include Box, MS Teams, Sites@Duke and more.

Use the menu to add apps or people to your kit, send notifications and more.

Get help or logout using the account feature.

Use the search box to quickly find a kit.

Create a new kit for your project or team. You can also combine course kits to set up and share tools across multiple rosters and courses.
